

The ultimate collaboration within Project POMA offers companies, organizations, and governments the most advanced blockchain technology in the world.

OUR VISION

People, companies, organizations, and governments working with Project POMA to maximize improvements in financial, social, and environmental well-being.

OUR MISSION

Bring blockchain technology to organizations and people throughout the world providing the potential for a better daily life through job creation, social innovation, and business development.

- PiIS FOR BUSINESS : BLOCKCHAIN MADE SIMPLE -

We believe that using blockchain applications should be as easy as sending an email. The POMA Intuitive Interface System (PiIS) enables every user to seamlessly interact with our blockchain based business tools. End users, regardless of their technical knowledge, can easily and efficiently embrace all benefits blockchain has to offer.*

IMPROVED SECURITY AND AUTHENTICATION

RESULT FOCUSED BUSINESS TOOLS

PAYMENTS AND DIRECT OWNERSHIP

REDUCE BUSINESS IT COSTS

- PROJECTS : PROJECT POMA -

After more than five years of development and research, the founding team has developed a series of projects that will be launched iteratively as soon as the POMA Blockchain platform main net is operational.

Turnkey Payment Gateways

E-commerce platforms, webshops, and websites can implement the turn key payment systems with just a few clicks.

Proof of Delivery

Simplifying the transport industry with blockchain technology! Value transports are fully tracked via the monitor platform.

Medical Devices

In conjunction with medical research centers and hospitals, we develop medical devices that utilize blockchain technology.

Energy Efficiency Systems

Energy consumption is minimized and a cost/revenue balance is achieved through the use of our intelligent blockchain-based systems.

Global E-learning Program

Partnering with universities around the globe, POMA Academy offers real-world training experiences to people in all 195 countries.

Business directory platform

The interactive business directory within pomapages.com allows people, companies, and freelancers all over the world to truly adopt cryptocurrency.

- PROJECTS : PARTNERS OF PROJECT POMA -

Project POMA has an active team of blockchain developers, concept designers, and online marketing specialists and collaborates with many companies from different industries on a multitude of innovative projects.
